

Low Noise, High Temperature Standard Connectors

Type HGST Liquid Crystal Polymer Rated to -29 to 260°C (-20 to 500°F)

ANSI color code shown	To order IEC color code visit us online
-----------------------	---

Liquid Crystal Polymer!

GS-GST Ground Strap Included. Additional Ground Straps, GS-GST-10

- ✓ Connector Ground Protects Against Electrical Noise Errors
- ✓ Connection Prevents Signal Loss Due to Vibration or Wire Movement
- ✓ Write-On Window
- ✓ Environmentally Friendly Cadmium-Free Liquid Crystal Polymer Shell

HCP-L write-on window included.

Shown actual size.

TWSH Series twisted and shielded thermocouple wire.

The TRODEKS® HGST low noise connectors are designed to provide easy connection of ground wires to TRODEKS® probes and extension wires. The drain wire of a 20 AWG twisted shield cable or the shield of the overbraided wire is crimped and held in place by the HGST's internal hardware. The HGST has excellent thermal and electrical characteristics to assure high accuracy. Each connector includes an HCP-L and HCP-HGST write-on window. An external ground strap is included to provide additional mechanical rigidity and strengthen the mechanical bond between the connectors. Ground straps also maintain the electrical contact through the connector, protecting against electrical noise errors.

Covered by U.S. and International Patents and Patents Pending Application.

Visit us online for low noise thermocouple probes.

Also Available!

Transmitters and Ferrite Cores for EMI Protection

Model SPRTX Built-in 4 to 20 mA transmitter.

PATENTED

Model PCLM-FT Cable Clamp with Ferrite Core for EMI Protection, Connector sold separately.

We make running changes when technical advances allow. Check at time of ordering for additional features.
