Notes: For additional cable length, add required length (in inches) to end of the model number for an additional cost. For a phone plug, add "-PP" to the model number for an additional cost. For tighter interchangeability, substitute the thermistor part number from the table below for an additional cost per sensor.

Ordering Examples: ON-920TA-44004-40-PP, thermistor probe with detachable cable with a resistance of 2252 Ω at 25°C and an interchangeability of ±0.2°C, 1 m (40") of cable and a phone plug connector.

ON-920TA-44034-40-PP, thermistor probe with detachable cable with a resistance of 5000 Ω at 25°C and an interchangeability of ±0.1°C, 1 m (40") of cable and a phone plug connector.
