

TRODEKS FLEX® *Chemical Tubing* PFA FORMULATION

TYTP Series

PFA tubing is a flexible tubing with an almost transparent appearance. Unlike pipe, PFA tubing can be extruded in very long, continuous lengths, thus allowing for fewer connections.

PFA tubing from TRODEKS® is manufactured from the highest-grade resins, which provide outstanding physical and chemical-stress crack resistance and superior flex-life. Like pipe, PFA tubing has excellent chemical resistance properties and can be used in temperatures ranging from -196 to 260°C (-320 to 500°F).

SPECIFICATIONS*

Hardness, Shore D: 60

Specific Gravity: 2.15

Elongation at Break: 300%

Brittle Temperature: 170°C (-275°F)

Service Temp: -196 to 260°C
(-320 to 500°F)

ASTM: 3307

**Specifications given are typical. Field testing is recommended to find the actual operating specifications in the given application.*

Notes: PFA is clear in color and can be heat sealed and heat bonded. Sold in standard coil lengths of 25, 50, and 100'. PFA packages have no splices.
