

# 22 mm PILOT DEVICES

## OMPBD7 SERIES

### PUSHBUTTONS AND SELECTOR SWITCHES

- Heavy-Duty/Oil Tight Pushbuttons
- Quick Installation with Tool-Less Mounting Latch
- Plastic Operators: NEMA 4/4X/13 and IP65/66 Rated
- Metal Operators: NEMA 4/13 and IP65/66 Rated
- Touch-Safe Contact Blocks—with IP20 Recessed Screw Terminals
- Heavy-Duty Current Rating (10A Continuous)

TRODEKS rugged OMPBD7 pilot devices offer maximum flexibility and a wide choice for all applications. This 22 mm line is aesthetically appealing and modularly designed to make assembly and interchangeability easy. The OMPBD7 operators are available in two different body styles to meet every application need. Both operators exhibit a new lower profile stylish appearance while maintaining the rugged performance necessary for demanding environments.

#### Two Operator Types

OMPBD7P is a plastic operator with a captive black plastic front bezel. Constructed of high-grade thermoplastics, the OMPBD7P is the corrosion resistant solution for harsh environments. For super tough applications, the OMPBD7M has a die-cast zinc housing and mounting ring for a rugged durability. Both are finished with corrosion resistant chrome plating. The OMPBD7M also features a captive shiny metal bezel for a polished appearance.

#### Quick, Easy Installation

A standard anti-rotation tab keeps front elements from turning or falling off the control panel, making it possible for one person to install all OMPBD7 components even if the front and rear panel are not accessible at the same time. A central mounting ring allows for quick installation and removal of all OMPBD7 operators. All back-of-panel components including contact blocks

All models shown larger than actual size.

OMPBD7P-E4PX10, \$24, plastic pushbutton, extended button, red, momentary operation with 1 NO contact.

OMPBD7M-F3PX10, \$24, metal pushbutton, flush button, green, momentary operation with 1 NO contact.

OMPBD7P-MT34PX01, \$45, plastic pushbutton, 30 mm mushroom, red, maintained operation with 1 NC contact.

Each pushbutton includes one contact block. Units shown with two additional blocks (pushbuttons may be used with up to 6 contacts) see page I-26.

and power module elements snap-on and are readily accessible and interchangeable without removing the pilot device from the panel.

#### Tool-Less Mounting Latch

The OMPBD7 “tool-less” mounting latch mates the front element with the contact blocks and other back-of-panel components. The mounting latch is available in a plastic and metal design. The latches are easily installed with a “click” and removed by pushing a rotating collar to the right. Quick, reliable and strong, it’s the best pilot device mounting latch available in the industry.

#### Long Electrical and Mechanical Life

Most OMPBD7 operators have a mechanical of ten million operations... five million contact blocks. Electrical life ranges from 500,000 cycles at 3 A to ten million at 0.1 A. The OMPBD7 line is also electronics compatible with self cleaning contacts.

#### Environmental Ratings

Front elements, including pushbuttons, mushroom operators and selector switches, are IP66 rated against submersion, oil and dirt, making them reliable in the toughest industrial environments. Metal operators are NEMA 4/13 rated and plastic operators are rated NEMA 4/4X/13.

# CONTACT BLOCKS

OMPBD7-X01, \$8.50.

OMPBD7-X10, \$8.50.

All shown larger than actual size.

Red = normally closed.

Green = normally open.

Rear view.

OMPBD7M-HM22PX01, two way metal selector switch with long knob. Each unit includes tool-less mounting latch and one normally closed contact block. Shown with two additional (up to 6 total per operator possible) normally open contact blocks, model OMPBD7-X10, \$8.50 each.

## Additional Features and Options

**Heavy-Duty Ratings**—The OMPBD7 line is UL 46E, NEMA A600 and Q600 listed. All components carry a 10 Amp continuous current rating, covering all industrial control needs.

**All Major Approvals**—OMPBD7 front elements are UL Recognized, while all OMPBD7 assemblies are UL Approved. The line is also approved by every major international agency making them ideal for export requirements.

### H-Bridge & Gold Plated Contacts—

By doubling the available paths for current to pass through the contacts, the standard H-bridge design provides a cleaner current flow. Gold plated contacts quadruple the current paths for increased contact reliability in low voltage applications.

**Touch-Safe**—Back of panel components are finger safe, with IP20 protection.

### Long Lasting Integral LED Assemblies—

Our new LED lamps last up to 11 years! They are conveniently offered as a complete unit for all illuminated operators which include the one piece Integral LED Module. They come in five different colors: amber, blue, green, red and white.

Panel Hole Dimensions: mm (in)

# 22 mm PUSHBUTTONS

## ILLUMINATED PUSHBUTTONS AND E-STOPS

OMPBD7-IL  
Series  
Start at  
**\$51**

Complete with  
pushbutton  
and light module

Each operator includes  
tool-less mounting latch and  
one contact block. Shown  
with two additional (up to 4  
total per operator possible)  
contact blocks.

OMPBD7P-LMM43PX10,  
\$39, plastic pushbutton,  
green, 40 mm mushroom,  
momentary operation, one  
NO contact, shown larger  
than actual size.

OMPBD7P-LE4PX01, \$30,  
plastic pushbutton, extended  
button, red, momentary  
operation, one NC contact,  
shown larger than actual size.

# 22 mm PILOT DEVICES

## HEAVY-DUTY/OIL TIGHT PUSHBUTTONS AND SELECTOR SWITCHES OMPBD7 SERIES

Front-of-Panel (Operators) <sup>1</sup>		
DESCRIPTION	PLASTIC (OMPBD7P)	METAL (OMPBD7M)
MECHANICAL RATINGS		
Vibration (assembled to panel)	[G] Tested at 10 ...2000 Hz, 1.52 mm displacement (peak-to-peak) max/10 G max for 3 hr duration, no damage	
Shock	[G] Tested at 1/2 cycle sine wave for 11 ms; no damage at 100 G	
Degree of Protection <sup>2</sup>	UL Type 3/3R/4/4X/12/13 (IP65/66)	UL Type 3/3R/4/12/13 (IP65/66)
Mechanical Durability per EN 60947-5-1 (Annex C)	10,000,000 Cycles Momentary push buttons, momentary mushroom 1,000,000 Cycles Multi-function, Selector Switch, Key Selector Switch, 500,000 Cycles Selector Jog Non-illuminated Push-Pull E-Stop 300,000 Cycles Twist-to-Release E-Stop, Illuminated Push-Pull E-Stop, Maintained Push Buttons, selector switches 100,000 Cycles Potentiometer, Toggle Switch	
Operating Forces (typical with one contact block)	[N] Flush/extended = 5N; E-stop = 36N; Mushroom = 9N	
Operating Torque (typical application with one contact block)	[N·m] Selector switch = 0.25 N·m (2.2 lb-in.)	
Mounting Torque	[N·m] 1.7 N·m (15 lb-in)	4.4 N·m (40 lb-in)
MECHANICAL RATINGS		
Temperature Range (operating) <sup>3</sup>	[°C] -25 to 70°C (-13 to 158°F)	
Temperature range (short-term storage)	[°C] -40 to 85°C (-40 to 185°F)	
Humidity	[%] 50 to 95% RH from 25 to 60°C (77 to 140°F) per: Procedure IV of MIL-STD-810C, Method 507.1 cycling test	

### Notes:

**1** Performance data given in this publication is provided only as a guide for the user in determining suitability and do not constitute a performance warranty of any kind. Such data may represent the results of accelerated testing at elevated stress levels, and the user is responsible for correlating the data to actual application requirements. ALL WARRANTIES AS TO ACTUAL PERFORMANCE, WHETHER EXPRESS OR IMPLIED, ARE EXPRESSLY DISCLAIMED.

**2** Momentary mushroom operators are IP65, multi-function operators are not Type 13 rated. Plastic operators with keys are not Type 4X rated.

**3** Operating temperatures below 0°C (32°F) are based on the absence of freezing moisture and liquids, UL recognized to 55°C (131°F) incandescent module, max 40°C (104°F).

Back-of-Panel Components <sup>1</sup>				
DESCRIPTION	PLASTIC (OMPBD7P)		METAL (OMPBD7M)	
ELECTRICAL RATINGS				
Standard Contact Block Ratings	A600, Q600, 600 Vac, AC15, DC 13 to EN 60947-5-1 and UL 508, 17V, 5 mA min			
Low Voltage Contact Block Ratings <sup>4</sup>	5V, 1mA DC min. C300, R150, AC 15, DC 13 to EN 60947-5-1 and UL 508			
LED Module Ratings	Nominal Voltage	Range	Current Draw	Frequency
	24 Vac	0 to 29 Vac	31 mA	50/60 Hz
	24 Vac	10 to 30 Vac	24 mA	DC
	120 Vac	70 to 132 Vac	25 mA	50/60 Hz
	240 Vac	180 to 264 Vac	22 mA	50/60 Hz
Thermal Current	[A] 10 A max enclosed (40°C ambient) to UL 508, EN 60947-5-1			
Wire Capacity				
Screw terminal <sup>5</sup>	[AWG]	#18 to 12 AWG (0.75 to 2.5 mm²) Max (2) #14 AWG or (1) #12 AWG		
Spring-clamp terminal	[AWG]	#18 to 14 AWG (0.75 to 1.5 mm²)		
Recommended Tightening Torque on Screw Terminals	[N]	0.7 to 0.9 N • m (6 to 8 lb-in)		
Insulation Voltage	[Ui]	Ui = 690 V (screw terminal) Ui = 300 V (screwless terminal)		
Dielectric Strength (Min)	[V]	2500 V for one minute		
External Short Circuit Protection				
Standard blocks	10 A type gL/gG cartridge fuse to EN 60269-2-1 or gN (Class J to UL 248-8 or Class C to UL 248-4)			
Low voltage Contact blocks	6 A type gL/gG cartridge fuse to EN 60269-2-1 or gN (Class J to UL 248-8 or Class C to UL 248-4)			
Electrical Shock Protection	Finger-safe conforming to IP2X			
MECHANICAL RATINGS				
Vibration (Assembled to Panel)	[G]	10 to 2000 Hz, 1.52 mm displacement (peak-to-peak) max/10 G max 6 hr		
Shock	[G]	Tested at 1/2 cycle sine wave for 11 ms and no damage at 100 G max		
Contact durability per EN 60947-5-1 (Annex C)	10,000,000 cycles			
Contact Operation	NO	Slow double make and break		
	NC	Slow double make and break - positive opening		
	NOEM	Double break/double make/early make		
	NCLB	Double break/double make, late break - positive opening		
	NCEB	Double break/double make, early break - positive opening		
Push Button Travel to Change Electrical State	NC and NOEM	1.5 mm (0.060 in)		
	NO and NCLB	2.5 mm (0.1 in)		
Operating Forces (Typical)	[N]	3.4 N: each single circuit contact block 5 to 6.5 N: each dual circuit contact block		

**Notes:**

<sup>1</sup> Performance data given in this publication is provided only as a guide for the user in determining suitability and do not constitute a performance warranty of any kind. Such data may represent the results of accelerated testing at elevated stress levels, and the user is responsible for correlating the data to actual application requirements. ALL WARRANTIES AS TO ACTUAL PERFORMANCE, WHETHER EXPRESS OR IMPLIED, ARE EXPRESSLY DISCLAIMED.

<sup>4</sup> Low voltage contacts are recommended for applications below 17 V, 5 mA.

<sup>5</sup> Wires less than #18 (0.75 mm<sup>2</sup>) may not hold in terminal securely.
